

JIGYASA KUMARI

West Lafayette, Indiana

☎ (765) 543-0145 ✉ jigyasa.khushi@gmail.com [in /in/jiisa/](https://www.linkedin.com/in/jiisa/) [github /jiisa-k/](https://github.com/jiisa-k/) <https://jiisa-k.github.io/>

Education

MS in Statistics

2025 – 2027

Purdue University, West Lafayette

B.Tech in Mechanical Engineering

2019 – 2023

Indian Institute of Technology, Roorkee

CGPA: 8.816/10

Relevant Coursework

- Introduction to Mathematical Statistics
- Introduction to Probability
- Natural Language Processing
- Intermediate Statistical Methodology

Work Experience

Quantitative Models Solutions Specialist, Wells Fargo, Hyderabad, IN

Jun 2023 – Aug 2025

- Automated the monitoring report generation process, resulting in a **94%** reduction in processing time and saving the team **~100 hours** per quarter.
- Implemented a **web application** to automate quality control processes, leading to a **75%** reduction in time spent and saving the team **~36 hours** per quarter.
- Recalibrated the consumer and small business **chargeoff and waiver model** to account for impacts due to COVID-19, leading to a **9% improvement** in model forecasts.

Analyst Intern, Wells Fargo, Bengaluru, IN

May 2022 – Jul 2022

- Collaborated with a team of senior analysts in Risk Modelling to create a **model development pipeline** that reduced workflows from **3 weeks to about 6 days**.

Publications

A Benchmark Study For Limit Order Book (LOB) Models and Time Series Forecasting Models on LOB Data

W Li, S S Cheng, L Mao, Jigyasa Kumari, et al

- Presents a benchmark to evaluate the performance of deep learning models on Limit Order Book (LOB) data.
- Submitted to **Neural Information Processing Systems (NeurIPS) 2025** – Datasets and Benchmarks Track.

Projects

Constraint Handling in Evolutionary Algorithms, Dr Dhish Saxena, IIT Roorkee

Aug 2022 – May 2023

- Developed a **graph neural network (GNN)** to generate offspring for evolutionary algorithms to solve constrained multiobjective optimization problems.
- Achieved **comparable performance** to the Push Pull Search algorithm for higher difficulty problems, and showed **performance improvements** for medium difficulty problems.

IC2 ESROP Intern, King Mongkut's University of Technology Thonburi (KMUTT) (Remote, TH) Jun 2021 – Aug 2021

- Worked with Professor Jonathan H Chan at the Innovative Cognitive Computing Center.
- Designed a **Deep Learning** model to output regions of opacity and the disease affecting them using chest X-ray images with a mean Average Precision (mAP) at **IoU > 0.5** of **60.1%**.
- Fine-tuned a **YOLOv5 model** for image detection, and an ensemble of **EfficientNet** models for image classification.

Technical Skills

Programming Languages: Python, C++

Tools: NumPy, Pandas, Scikit-learn, PyTorch, TensorFlow and Keras

Technical: Statistical Modelling, Machine Learning, NLP, Automation

Awards / Scholarships / Academic Achievements

- Awarded the prestigious **NTSE scholarship** – 2017; awarded to **700 of ~100k candidates**.
- Secured top national ranks: **AIR 6588 of ~160k** in **JEE Advanced** and **AIR 6654 of ~1.5M** in **JEE Mains**; achieved **99.7+ percentile**.
- Won **bronze medal** in the **SIIM-FISABIO-RSNA Covid-19 Kaggle challenge**, (**top 10%** of submissions).
- Invited to the **Goldman Sachs Women Possibilities Summit: Finance** for a standout case study submission.
- Awarded the **Q3 2024 Spotlight Award** at **Wells Fargo**; given to **~10** out of **150+** employees.
